Navigating Organizr

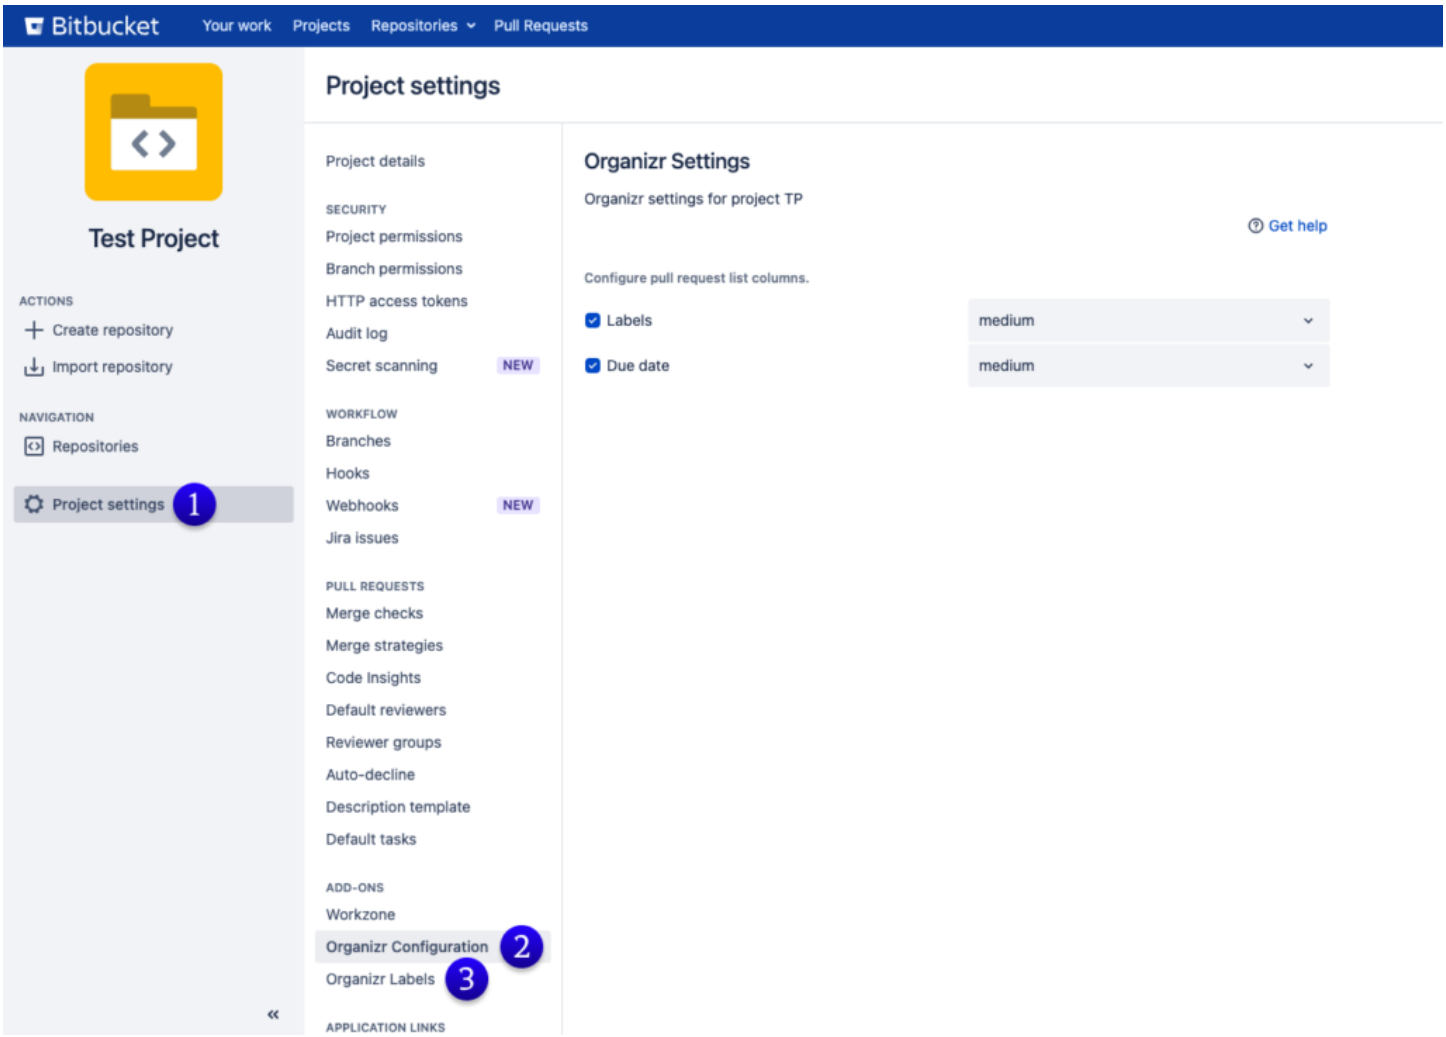

Getting Started Organizr · https://izymes.com/docs/navigating-organizr/

Navigating Organizr Administration Settings

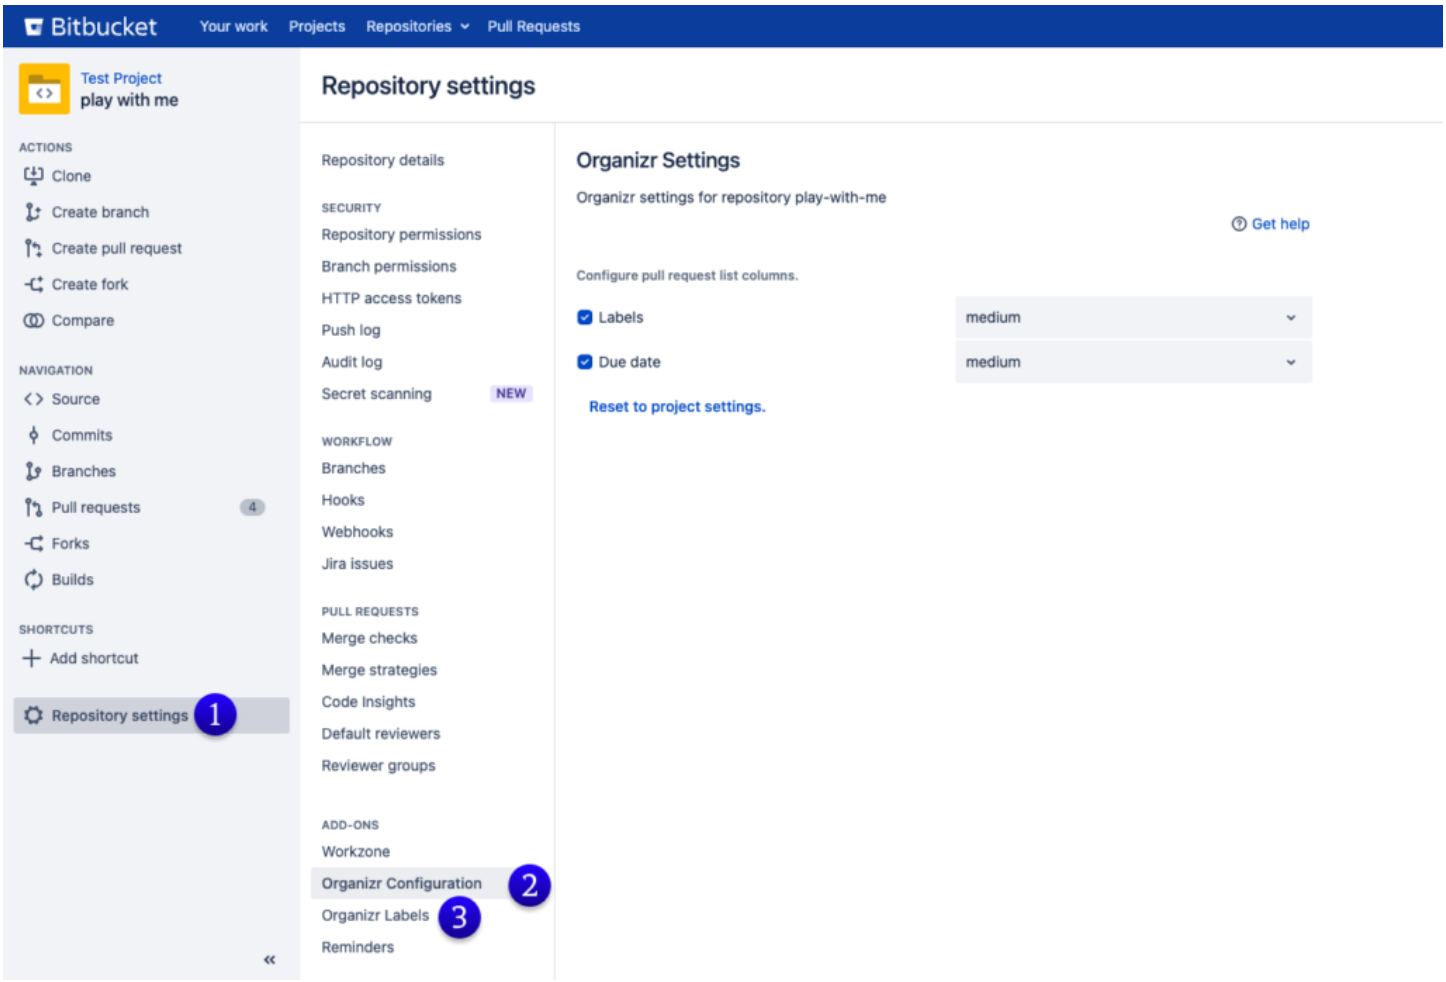

1. Access this page through the Administration icon on the top right Bitbucket.
2. Scroll down the left menu to "Organizr" under the "Add-Ons" section.
3. Here you can also create, edit or delete labels in the Label Manager

Navigating Organizr Project Settings

1. Click on the "Settings" button in your Project.
2. Scroll down to the "Add-Ons" section and click on "Organizr" - You have arrived at Organizr Settings, where you can make adjustments and continue with setting up Organizr.
3. Here you can also create, edit or delete labels in the Label Manager

Navigating Organizr Repository Settings

1. Click on the "Settings" button in your repository.
2. Scroll down to the "Add-Ons" section and click on "Organizr" - You have arrived at Organizr Settings, where you can make adjustments and continue with setting up Organizr.
3. Here you can also create, edit or delete labels in the Label Manager
