Pull Request labels and due-dates

Feature Guide Organizr · https://izymes.com/docs/organizr-pull-request-labels-and-due-dates/

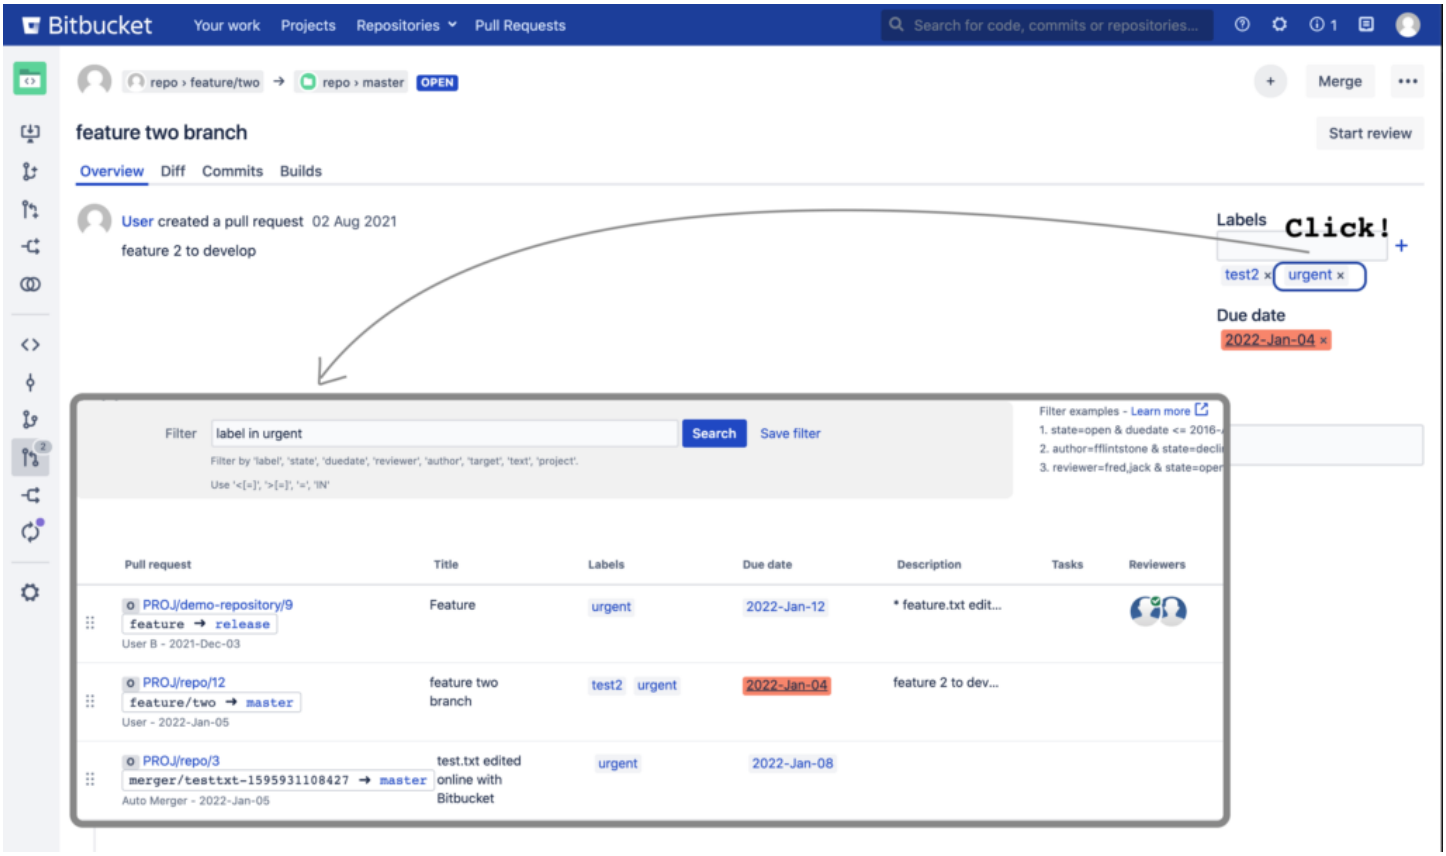

Add Label & Due Date - Create Pull Request Screen

You have the option of adding labels and due dates to pull requests from either the create a pull request screen as seen below, or from the pull request overview page after the pull request has already been created.

Add Label & Due Date - Pull Request Overview Screen

Just add labels and due-dates to pull requests and then filter all pull requests across the entire instance by label and due-date. No important pull request gets overlooked and lost any more.
