Partner Discounts

More Resources (cloud) · https://izymes.com/docs/partner-discounts/

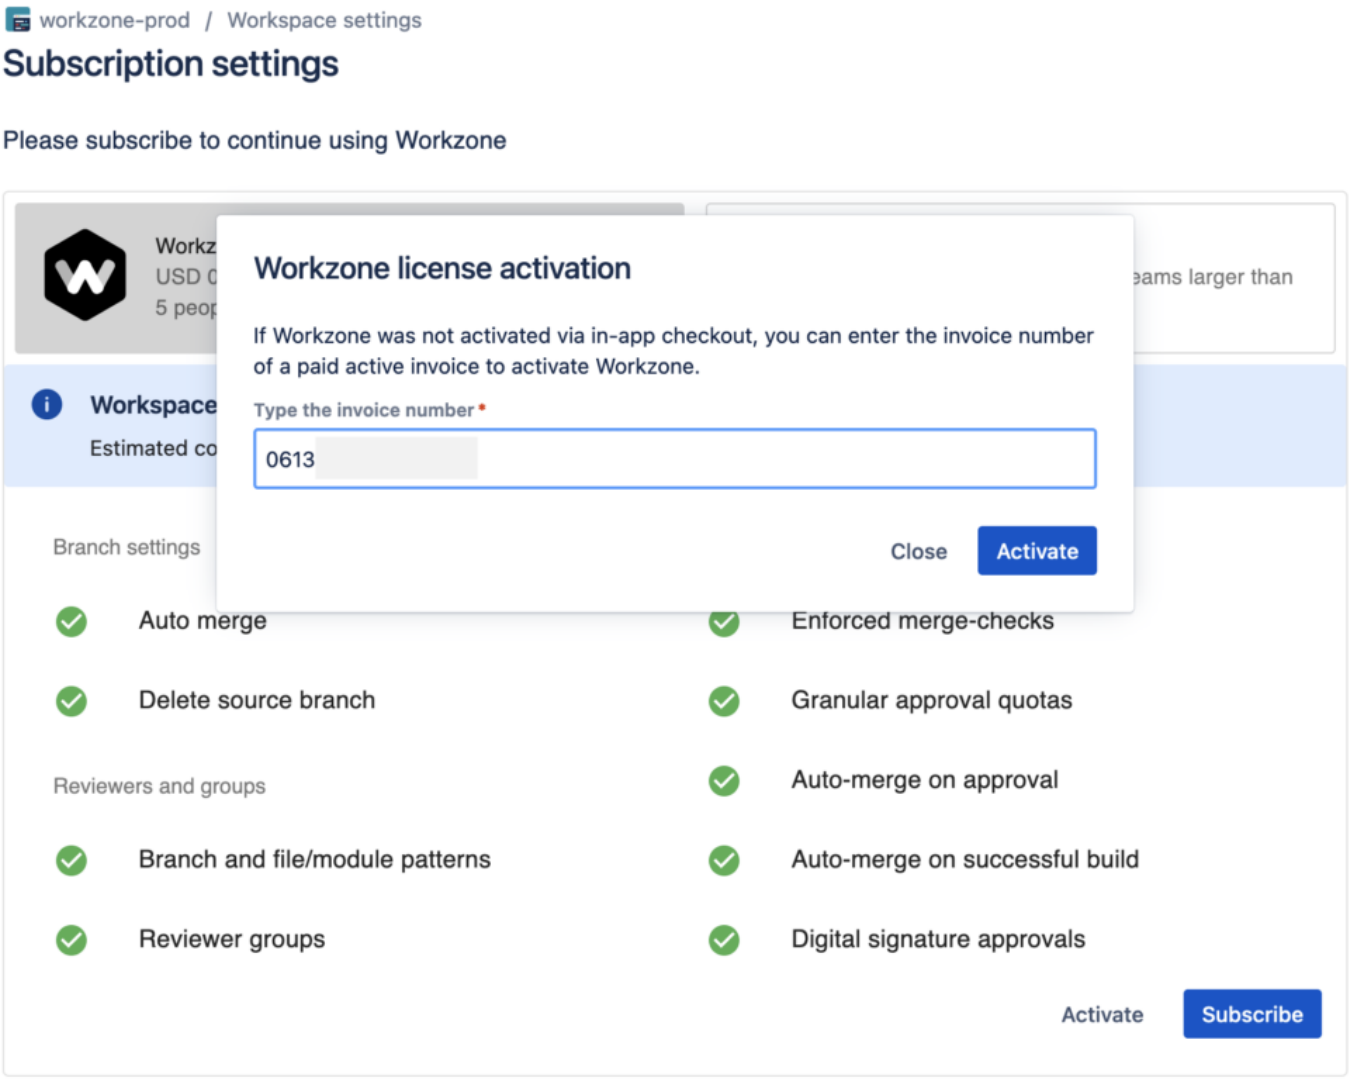

Bitbucket Cloud is yet to introduce an in-platform payment process similar to that seen in Server/Data Center. Because of this, Workzone for Bitbucket Cloud utilizes the Stripe Payment software to closely replicate the payment process that many Bitbucket customers are familiar with on Server.

Solutions Partners are still able to claim a 20% discount by getting in touch with the Izymes team through the Support Desk. The Izymes team will provide 2 separate quotes;

- One quote reflects the 20% partner discount.
- Another quote reflects the normal pricing of Workzone - To present to your clients.

The partner can pay for the quote/invoice via the Stripe link within the quote.

Once the invoice has been paid, the partner can then input the paid invoice number into the Workzone billing dashboard. This will then automatically activate the account for your client.

Workzone Cloud is free for teams of up to 5 users. For teams larger than 5 users, Workzone Cloud requires a subscription of USD $0.50 per user per month or USD $5.00 per year.

Try Workzone for Cloud!
