Installation (Server / Data Center)

Getting Started Workzone · https://izymes.com/docs/workzone-installation-server-datacenter/

1. Log into your Bitbucket instance as an admin.
2. Click the admin dropdown and choose **Atlassian Marketplace**. (The *Manage add-ons* screen loads.)
3. Click **Find new apps** or **Find new add-ons** from the left-hand side of the page.
4. Locate **Workzone: PullRequest Workflow** via search. (The appropriate app version appears in the search results.)
5. Click **Try free** to begin a new trial or **Buy now** to purchase a license for **Workzone: PullRequest Workflow**. (You're prompted to log into MyAtlassian. Workzone: PullRequest Workflow begins to download.)
6. Enter your information and click **Generate license** when redirected to MyAtlassian.
7. Click **Apply license**. (If you're using an older version of UPM, you can copy and paste the license into your Bitbucket instance.)

To find older *Workzone: PullRequest Workflow* versions compatible with your instance, you can look through our version history page.

Try Workzone!
